OneVue Notify® for Education:
Alerting, Messaging, and Communicating — Visualized

In an emergency, every second matters. Alerting students and staff within seconds of an unfolding event could save lives. Primex **OneVue Notify® InfoBoard™** displays quickly inform people of emergencies so they can get to safety sooner.

Ideal for elementary and high school hallways, cafeterias, and gyms, or entire college campuses, these easy-to-read, digital displays are available in three sizes and provide critical notifications, general messaging, and synchronized time to keep people safe, in the know, and on time.

Increase Safety, Communication, and Timeliness at Your School

Primex OneVue Notify InfoBoard displays can convey information of all kinds to your student body. These bright LED boards can be read at a distance and display preset messages such as "Lockdown," "Evacuate," or "Weather" to signify a critical event, like an active shooter or weather emergency. In addition, the InfoBoard displays can:

- **Provide an "All-clear" message** to let students and staff know the critical event has ended
- **Act as a communication solution in loud environments** where audio announcements usually go unheard
- **Create a more inclusive learning environment** by relaying messages to those who are hard of hearing

> **Let Primex OneVue Notify bolster your safety, communication, and timeliness efforts throughout your entire place of learning.**

When paired with the web-based OneVue software platform, InfoBoard displays can boost school spirit by providing custom messages to congratulate graduating classes, acknowledge special academic achievements, or cheer on the sports teams. The InfoBoard displays can also:

- **Provide A/B day reminders and display synchronized time** throughout your entire school or campus
- **Show a countdown timer** between class periods
- **Integrate into your existing PA** system with additional OneVue Notify Bell Controllers
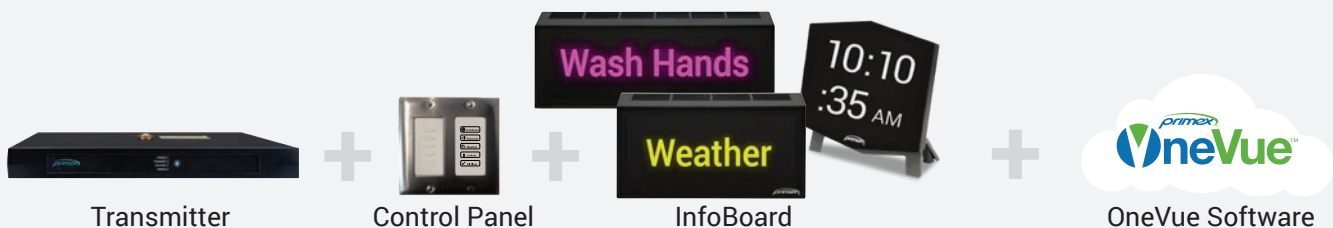

Configuration Options:

Basic Critical Notification System
Visual alerting system to notify staff and students of a lockdown, evacuation, or weather emergency. Note: OneVue software not included; can only use preset alerts

Transmitter + Control Panel + InfoBoard

Advanced Critical Notification System
Add the OneVue software to increase use of InfoBoard displays for custom messages and synchronized time

Transmitter + Control Panel + InfoBoard + OneVue Software
