

# Wood Series Analog Clocks

## POE / IP Clocks

Dress up your space with decorative OneVue Wood Series Clocks and keep your facility running in sync, even through power outages or Daylight Saving Time shifts. Network and clock settings are easily preconfigured online through the intuitive OneVue interface.

When clocks arrive, connect to PoE (Power over Ethernet), and hang on the wall. The clocks will instantly access your existing network and synchronize with every other OneVue clock in your facility. Keeping your facility running on time has never been easier!

### Wood Series Analog Clocks

High-tech accuracy is presented in a traditional look with the Wood Series Clocks. Ideal for offices, libraries, conference rooms, and entryways, the solid hardwood frame is available in a variety of finishes. Dial faces are available with Arabic numerals on ivory dials or Roman numerals on antique dials.
