

Stick to school schedules, boost student learning time, and significantly reduce clock maintenance with Primex Sync™ Synchronized Time solutions.

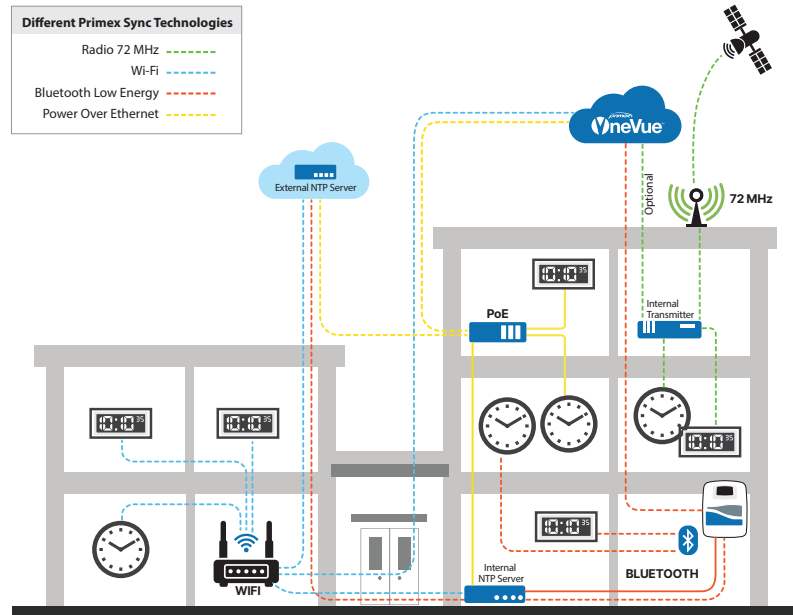

Through innovative technology and a multitude of clock options, Primex Sync provides unified timekeeping throughout stand-alone schools and sprawling multibuilding campuses.

Primex Sync™ delivers precise, campuswide time using the technology that best fits your school.

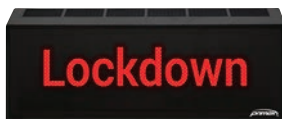

Radio 72 MHz, Wi-Fi, Bluetooth® Low Energy, or Power over Ethernet

- Use our patented Radio 72 MHz solution, engineered for unrivaled signal strength, guaranteed coverage, and reliability for stand-alone schools to sprawling campuses.
- Leverage Wi-Fi or a Bluetooth® Low-Energy mesh network for fast, seamless installation where cabling is prohibitive.
- Choose Power over Ethernet (PoE) for a secure, wired option that delivers both power and time over existing or new cable.

With Primex Sync, you gain more than synchronized time; you gain efficiency, confidence, and peace of mind. This solution helps decrease tardiness, keeps students and staff on the same schedule, and lessens clock maintenance. Discover how accurate timekeeping can transform your school with Primex Sync.

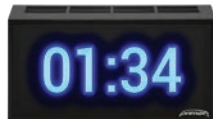

Seamlessly Add Visual Notification to Your School's Synchronized Timekeeping with Primex Notify™

Critical Mass Notification

Enhance your school safety with Primex Notify InfoBoard™ Displays. These LED message boards add a visual layer to emergency preparedness plans by showing critical alerts at the press of a button. The cloud-based OneVue® Software platform allows for quick post-incident review for compliance proof.

Countdown Timers

Improve hallway flow while decreasing tardiness. Countdown timer functionality on Primex Notify InfoBoard Displays gives your students the awareness of exactly how much time remains in the passing period. When students arrive to class on time, teachers can begin instruction promptly to maximize in-class learning time.

Custom Messages

Boost communication, awareness, and school spirit throughout your campus by showing customized messages on Primex Notify InfoBoard Displays. Create custom messages in the mobile-friendly OneVue Software platform that are perfect for congratulating achievements, reminding of schedule changes, or cheering on sports teams.

Being on time matters.

Whether for everyday classes, special lectures, standardized testing, school assemblies, or bus schedules — punctuality matters.

Primex Sync™ Synchronized Time can help you, your students, your staff, and your entire school stay on schedule.

A variety of clock styles, mounting options, and configurations are available to fit your school's aesthetic and functional needs.

Analog Clocks

Dependable Primex Sync analog clocks come in a variety of frame colors, dial options, and sizes to fit any style or budget. Custom faceplates are available to include school logos, mascots, or branding.

Digital Clocks and Timers

Adjustable LED brightness, a sleek design, and flush- and dual-mount options make Primex Sync digital clocks and timers as attractive as they are functional. Enable a countdown timer to inform students exactly how long they have until their next period starts.

Optimize Your Bell Scheduling with the Primex Notify™ Bell Controller

The Primex Notify Bell Controller works seamlessly with your existing public address system to trigger standard or customized bell patterns throughout the day. Schedule year-long bells for every school within your district in one place: the OneVue® Software platform. Plus, quickly and easily change schedules when needed for a weather-related late start or impromptu event.

Why Primex?

Primex Sync™ makes synchronized time simple by combining powerful technologies, easy deployment, and long-term reliability. The robust, cloud-based OneVue® Software platform enables remote monitoring and simple system expansion to include critical visual messaging with Primex Notify™.

Flexible Time Synchronization

Primex Sync offers four different time synchronization technologies to fit any school, from stand-alone elementary schools to sprawling college campuses.

Customization

Submit your school or university's logo or mascot to prominently display your branding on analog clock dials.

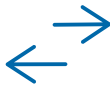

Automatic Time Changes

All Primex Sync clocks update automatically after daylight saving time shifts and resynchronize after power outages.

Power Options

Primex Sync clocks can be battery powered, AC powered, or receive Power over Ethernet (PoE).

Interfacing with Other Systems

Primex Sync integrates into existing public address and life safety systems.

Peace of Mind

Primex Sync Radio 72 MHz transmitters and clocks come with a 5-year standard warranty, and the Radio 72 MHz and Wi-Fi solutions come with a signal coverage guarantee.

"In an educational environment where testing, class schedules, meetings, and events are all time-sensitive, the Primex Sync system has every clock at exactly the same time in every building on campus."
