

# Wood Series Analog Clocks

## Wi-Fi

Our proven, long-trusted technology synchronizes time across campuses, hospitals, and facilities of any size — enhancing efficiency, reducing delays, and ensuring pinpoint accuracy. With automated daylight saving time adjustments and zero disruption, Primex Sync keeps your organization running on time, all the time.

Primex Sync Wood Series analog clocks are ideal for offices, libraries, conference rooms, and entryways. The solid hardwood frame is available in a variety of finishes, and dial faces are available with Arabic numerals on ivory dials or Roman numerals on antique dials.

Built-in Wi-Fi connectivity that adheres to the latest WiFi standards, utilizing TLS 1.3 encryption. Allows for flexibility in clock location placement and facilitywide expandability. Simply access your existing IT network via Wi-Fi to quickly synchronize to the exact second. With Primex Sync WiFi clocks, no complicated configuration app required. Once the clocks are connected, simply hang on the wall and enjoy.
